## THE GAZETTE.

SATURDAY MORNING, SEPTEMBER 15, 1860.

GEORGE BANCROFT'S ORATION. The following we take from the oration of the Honorable George Bancroft, delivered in

of the inauguration of the Perry statue: "We have met the enemy," were Perry's And who was that enemy?" A nation spea-king another tongue? A State abandoned to the caprices of despotism? A people inimical to human freedom? No! they were the their fashion the love of liberty, enjoying internally the freest government that the world had known before our own. But the exterton aggressions upon us, useless to England, condemned now by their own statesmen and judges as violations of the law of nature and the law of nations, forced into a conflict two peoples whose common sympathy should never have been disturbed. And is this aggressive system forever to be adventured by her ruleratic element in her government to stand between the natural affections of kindred

nations?

Even now a British Minister, whose past career gave hope of greater fairness, is renewing the old system of experiments on the our boundary in the northwest, though the words of the treaty are too plain to be perverted, and though the United States claims no more than the British Secretary of State who now encamped on part of our territory which bears the name of Washington. With a moderation that should have commanded respect, the United States waived their better claim to Vancouver, and even to any part of it, thinking it conducive to peace to avoid two jurisdictions on different parts of the same island, and in return for this forbearance, the British Ministry, yielding perhaps to some selfish clamor of a trading company, as much against British interests as against American rights, reproduces on an American island the inconvenience of divided occupation, which it was the very purpose of the treaty to avoid.

If the hum of the American scabcard is in here the unmixed voice of America may be sooner than the most powerful preparation of Sarheard, as it pronounces that it is too late to saparilla. wrest territory from the United States by prevarication, by menace, or by force.-From the English dockvards it is a long vovage to San Juan; the only good land route across the continent lies south of Lake Superior; in a few years there will be three Ohios | and Organs. on the shores of the Pacific. It is England's interest as well as duty to give effect to the treaty as it was interpreted by her own minister to ours. INSURANCE BUSINESS IN NEW YORK .-- In booking over the list of insurance stocks at New York, we are led to the conclusion that the insurance business in that city is the most productive use to which capital can be applied. In a list covering ninety-three insurance companies, there is but one that di- TER PROOF COMPOSITION and CEMENT vides as low as 6 per cent. per annum, but FOR ROOFING; and also, FELT, a combination six as low as 8 per cent., and a majority of them 20 per cent., and above. One dividing as pure as any made in the United States, and 39 per cent, one 25, and several 24. The price of shares shows a corresponding advance on their par. Searcely any of them are quoted less than double par, and many on the above Roofs at short notice, and at low of them six and eight times par. For instance, the stock of the "Brooklyn" sells at \$165, the par being only \$17, an advance of nearly 1,000 per cent. : "The Firemen's Insurance," the par of which is also but \$17 per share, is selling at \$120, more than seven times the par. "The Firemen's Fund." the par of which is \$10 is selling at \$70, also seven times its par. Several are selling at four times par, and quite a number at two and three times par. This looks like a most profitable business, and shows that either rates are too high or that losses by fire and storm are very few .- Philadelphia Ledger.

It is stated that measures are in progress that are almost sare to eventuate in the speeds building of a continuous line of tele Invite the attention of Merchants visiting this graph wires to San Francisco, and perhaps vity to an examination of their stock, which in to Oregon. It will be remembered that the Telegraph bill, as it originally passed the Senate, provided for a subsidy for ten years of \$50,000 to the parties who should accept the contract. This subsidy was cut down to \$40,000 in the in this country, use Worcester's Pianos at their House, and there were also other amendments made to the bill of a nature that cansed it to be rejected by certain parties who had previously been anxious to obtain it. These parties have been eagerly waiting at home, than nine tenths of the so-called Pianos, the meeting of the next session of Congress, is the confident expectation that they could obtain double if not treble the amount of subsidy provided for in the present bill .-This proposition of the Union Company, therefore, will give Secretary Cobb an obportunity of cutting off a prospective leak in the Treasury, which in the course of the RY, as I am selling BROOMs this day lower ten years would deplete it to the amount of than they can be bought in New York or any mara bail million to a million of dollars or more. ket south of that.
